

Protection & Convenience with **UL SHIELD**

ULSHIELD

Campus Safety App

FREE! Download Today...

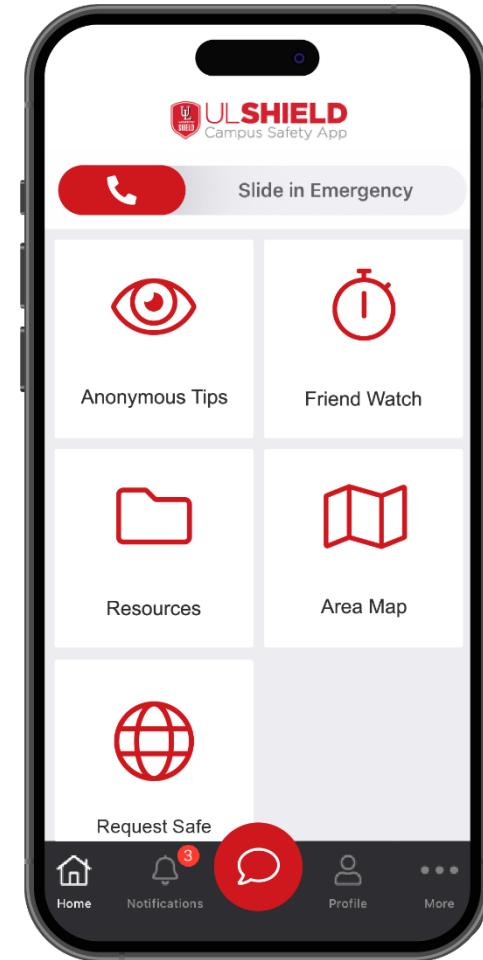

Emergency Button Slider

UL SHIELD connects you directly with the safety forces who can respond the quickest when you're in an emergency.

When the **Emergency Button Slider** is activated, safety forces are directly contacted. Location information may also be sent to help cut down on response time.

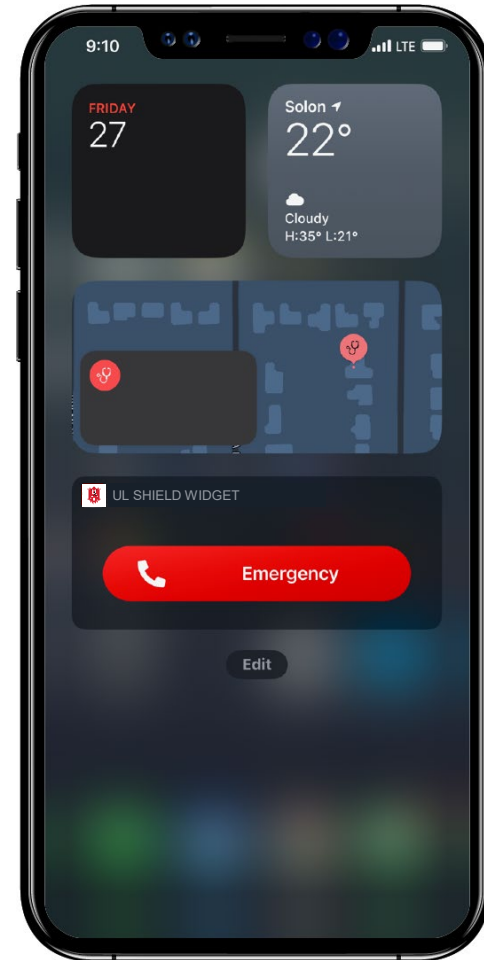

Your location is *NOT* passively tracked. Location services are only used when you signal for assistance.

Widget Activation

Additionally, you can activate the **Emergency Button** from your phone's widget screen, saving valuable time in the event of an emergency.

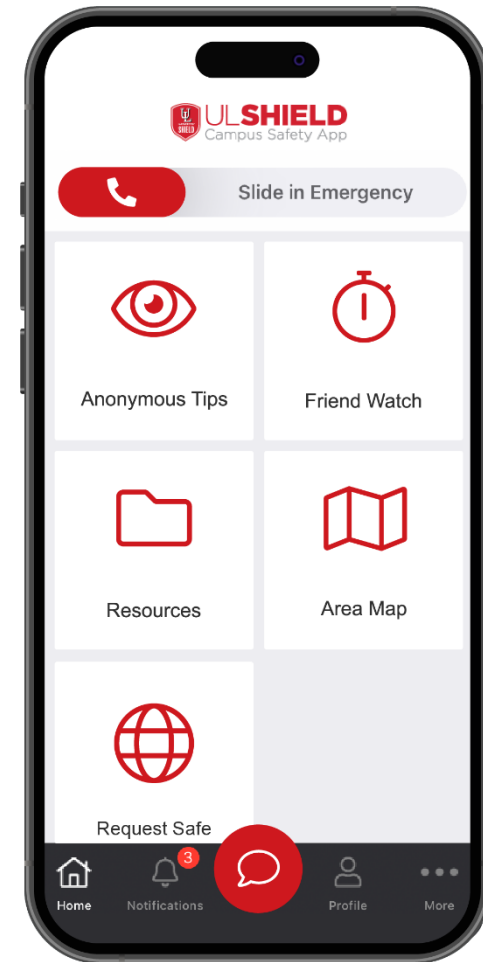

Additional Features

Anonymous Tips help you proactively and anonymously submit safety concerns while attaching photos and videos...

Friend Watch creates a safety network of friends and colleagues who can watch your back during potentially dangerous activities...

Additional features like the **Area Map**, **Resources**, and **Request Safe Transport** provide you with extra layers of convenience and security on campus.
